

Contents

CHAPTER 1: Introduction	1-9
1.1 Kind Of Information Collection	1
1.2 Data Mining And Knowledge Discovery	2
1.3 Characteristics Of Data Mining System	3
1.4 Kind Of Data To Be Mined	3
1.5 Things Discovered	5
1.6 Data Mining Tools	5
1.7 Classification Of Data Mining System	6
1.8 Issues In Data Mining	7
1.9 Scope In Data Mining	8
CHAPTER 2: A Survey On Association Rules Algorithms	10-22
2.1 Association Rule Problem	12
2.2 Basic Algorithms	13
2.2.1 Sequential Algorithms	13
2.2.1.1 AIS Algorithm	13
2.2.1.2 Apriori Algorithm	14
2.2.1.3 Sampling Algorithm	16
2.2.1.4 Partitioning Algorithm	16
2.2.2 Parallel And Distributed Algorithm	18
2.2.3 Extended Association Rules	21
2.2.3.1 Generalized Association Rules	21
CHAPTER 3: Basics Of Association Rule Mining	23-33
3.1 Single And Multidimensional Association Rules	23
3.2 Supports And Confidence	24
3.3 Definition Of Association Rule	26
3.4 Frequent Itemsets	26
3.5 Apriori Algorithm	27
3.5.1 Exploiting The Apriori Properties	29
3.5.2 Improving The Apriori Algorithm Efficiency	33
CHAPTER 4: New Proposed Algorithms	34-35
4.1 Signature Algorithm	34
4.1.1 Signature Property	34
4.1.2 Algorithm	35
4.2 Database Pruning Algorithm	36
4.2.1 Problem Description	36
4.2.2 Major Features	37
CHAPTER 5: Software Requirement Specifications	38-40
5.1 Introduction	38
5.1.1 Purpose	38
5.1.2 Motivation	38
5.1.3 Scope	38
5.2 General Description	39
5.2.1 Project Functional Overview	39

5.2.2 User Characteristics	39
5.2.3 General Constraints	39
5.3 Specific Requirements	39
5.3.1 Input And Output	39
5.3.2 Functional Requirement	40
5.3.3 Design And Performance Constraints	40
5.3.1 Software Constraints	40
5.3.2 Hardware Constraints	40
CHAPTER 6. Results	41-53
6.1 Association Rules From Real Time Data	41
6.2 Graphical Representation Of The Time Taken By Algorithms	50
6.3 Strength And Weakness Of Association Rule Analysis	52
6.3.1 Strength Of Association Rule Analysis	52
6.3.2 Weakness Of Association Rule Analysis	53
CHAPTER 7: Conclusion	54
CHAPTER 8: Future Directions	55
Source Code	56-92
References	93-95
