

measure, the power supply to sectors 38-A, 18, 20, 67A and GIP was interrupted for a couple of hours.

Huge rush for MTech courses at DTU

TRIBUNE NEWS SERVICE

NEW DELHI, JUNE 24

This year, Delhi Technological University is seeing a huge rush for its MTech courses.

The university has already received some 2,840 applications for its 17 MTech programmes, which is 40 per cent more than what it had received last year.

Vivek Tripathi, assistant registrar of the university, says, "There is a substantial rush for the MTech courses this year. The electronics and communication engineering department has received the maximum number of forms, 832."

Tripathi added, "Other popular courses are computer science and engineering and software engineering, which has received 564 applications against 42 seats. Courses like MTech in mechanical engineering, thermal engineering and production engineering have received some 440 applications."

The list of the selected candidates will be put up on the university website on June 28. The interviews will be held on July 4 and 5.

Meanwhile, admissions for the 15 BTech programmes are being done on the basis of an online counselling. To date, 10,827 candidates have registered for online counselling.

OP Verma, chairman, admission committee, said, "BTech admissions will be made strictly on the basis of the choices submitted by the students and their all-India ranks. Eightyfive per cent of the total 1,218 BTech seats are reserved for students from Delhi."
