

# **SERIES CAPACITORS COMBINED WITH STATIC VAR COMPENSATORS FOR ENHANCEMENT OF STEADY-STATE VOLTAGE STABILITIES**

*A dissertation submitted  
in partial fulfillment  
for the award of the degree of*

## **Master of Technology In Power Systems**

**Submitted By  
Naishadh Pushkaran  
(University Roll No: 07/P.Sy/09)**

*Under the guidance of*  
**Dr. NARENDRA KUMAR**  
(Professor & Head of Deptt. of Electrical Engineering)

**DELHI TECHNOLOGICAL UNIVERSITY  
BAWANA ROAD, NEW DELHI  
JUNE'11**

## **CERTIFICATE**

This is to certify that the project entitled, “**SERIES CAPACITORS COMBINED WITH STATIC VAR COMPENSATORS FOR ENHANCEMENT OF STEADY-STATE VOLTAGE STABILITIES**” submitted by **Mr. Naishadh Pushkaran, University Roll No. 07/P.Sy/09**, student of **Master of Technology (Power Systems)** from **Delhi Technological University**, Delhi is a dissertation work carried out by him under my guidance during session 2010-2011 towards the partial fulfillment of the requirements for the award of the degree of Master of Technology in Power Systems.

I wish him all the best in his endeavours.

**Dr. NARENDRA KUMAR,**  
Professor & Head,  
Department of Electrical Engineering,  
Delhi Technological University,  
Delhi-110042.

## **ACKNOWLEDGEMENT**

This report as we see today is an outcome of persistent effort and a great deal of dedication and it has drawn intellectual and moral support from various people within the institution.

It is my great pleasure to express my profound gratitude to my honourable guide **Dr. NARENDRA KUMAR**, Professor and Head of Department of Electrical Engineering, Delhi Technological University for his constant Guidance and unflinching encouragement throughout the development of this project. It is a matter of great pride for me to have worked under him. It in itself was a source of inspiration for me to complete the project with great enthusiasm, energy and determination. I also give extra special thanks to him for dedicating his valuable time whenever I needed to discuss project related work.

I would also like to express my sincere thanks to **Dr.VISHAL VERMA, Dr. SUMAN BHOWMICK**, and other faculty members of Electrical Engineering Department, Delhi Technological University.

I will be indebted to my parents and friends for helping me realize my goals. Without their blessings, this work would not have been possible.

I thank Almighty GOD for his countless blessings.

Date:

**Naishadh Pushkaran**

# TABLE OF CONTENTS

	Page No.
<b>Abstract.....</b>	<b>1</b>
<b>Chapter 1: Introduction.....</b>	<b>2-7</b>
1.1 Background.....	2
1.2 Literature Review.....	3
1.3 Objective of work.....	7
<b>Chapter 2: Voltage Stability in Power System.....</b>	<b>8-12</b>
2.1 Introduction.....	8
2.2 Concept and classification of voltage stability.....	8
2.3 Classification of power system stability.....	9
2.4 Analysis of power system voltage stability.....	10
<b>Chapter 3: FACTS Controllers for Power Systems.....</b>	<b>13-21</b>
3.1 Introduction.....	13
3.2 Impact of controller location.....	14
3.3 Static VAR compensator.....	14
3.3.1 The Thyristor controlled reactor (TCR).....	15
3.3.2 Thyristor switched capacitor (TSC).....	19
<b>Chapter 4: Analysis of Series capacitor and SVC.....</b>	<b>22-28</b>
4.1 Studied System.....	22
4.2 Power system model with series capacitor and SVC.....	23
4.3 System Equations.....	24
4.4 Compensator Rating.....	28
<b>Chapter 5: Results and discussion using Matlab.....</b>	<b>29-60</b>
5.1 System data.....	29
5.2 Power versus voltage (P-V) curve with the presence of Series capacitors and Static VAR compensator.....	29
5.2(a) Case 1 when $G = 0.0$ (i.e. without compensator action).....	29

5.2(b) Case 2 when varying G and $X_c=0.0781$ (25% series compensation).....	33
5.3 Static VAR compensator parameters in the presence of series Capacitors.....	38
5.3.1 Compensator controller gain 'G'.....	38
5.3.1(a) Case 1 Gain with active power .....	38
5.3.1(b) Case 2 Gain with reactive power.....	42
5.3.2 Effect of series compensation percentage on the SVC Controller Reference voltage.....	45
5.3.3 Influence of the SC percentage on the SVC rating.....	48
5.3.3(a) Rating of SVC v/s Load Power .....	49
5.3.3(b) Rating of SVC v/s series compensation.....	52
5.3.4 Series compensation limit for voltage stability enhancement.....	54
5.3.4(a) Gain v/s series compensation .....	55
5.3.4(b) Reference voltage v/s series compensation .....	57
5.3.4(c) Gain v/s rating of SVC.....	58
<b>Chapter 6: Conclusions.....</b>	<b>61</b>
<b>References.....</b>	<b>62</b>
<b>Scope for future work.....</b>	<b>66</b>
