

## **ACKNOWLEDGEMENT**

I express sincere thanks and deep sense of gratitude to my Project Guide Dr. Narendra Kumar, Professor and Head of Department of Electrical Engineering, Delhi Technological University for his motivation & guidance, without which this project wouldn't have been possible. I consider myself fortunate for having the opportunity to learn and work under his able supervision & guidance for his innate goodness.

Also I am deeply thankful to Dr. Parmod Kumar, Department of Electrical Engineering for his valuable advice for the project. At the same time I am thankful to Dr. Suman Bhowmic to help me out by providing necessary tips on the project.

My special thanks to my loving friends of Power System and C&I, who always gave me moral support and continuously encourage my academic endeavor.

Lastly, my deepest gratitude to Almighty God whose divine light provided me the perseverance, guidance, inspiration and strength to complete this work. This is to acknowledge that, the dissertation has been completed under the AICTE R & D Project, "Enhancing Power System Performance using FACTS Devices" in the Flexible AC Transmissin Systems (FACTS) Lab.
