

# **Production and characterization of recombinant cellulolytic enzymes**

*A Major Project dissertation submitted*

*in partial fulfilment of the requirement for the degree of*

**Master of Technology**

**In**

**Industrial Biotechnology**

*Submitted by*

**Ashok Kumar Dev**

**(Roll No. 2K13/IBT/15)**

**Delhi Technological University, Delhi, India**

*Under the supervision of*

Dr. Monica Sharma, Assistant Professor, DTU, Delhi

&

Dr. Shams Yazdani, Group leader, ICGEB, New Delhi

Department of Biotechnology  
Delhi Technological University  
(Formerly Delhi College of Engineering)  
Shahbad Daultpur, Main Bawana Road,  
Delhi-110042, INDIA

# DECLARATION

I hereby declare that the Major Project entitled, **“Production and characterization of recombinant cellulolytic enzymes”** submitted by me to Delhi Technological University in fulfilment of the requirement for the award of the degree of **M.Tech (Industrial Biotechnology)** is a record of bonafide research work carried out by me under the guidance of **Dr. Monica Sharma, Assistant Professor, Department of Biotechnology, DTU & Dr. Shams Yazdani, Group Leader, ICGEB, New Delhi**. I, further declare that the work reported in this work has not been submitted, and will not be submitted either in part or in full for the award of any other degree or diploma of this University or of any other institute or university.

(ASHOK KR. DEV)

# ACKNOWLEDGEMENT

It has been my dream to have the meaning of good research and I fulfilled it at Department of Biotechnology at Delhi Technological University under the guidance of my project supervisor Dr. Monica Sharma, Assistant Professor, Department of Biotechnology, DTU. I gratefully acknowledge her for her inspiring guidance, friendly affection, unending encouragement and valuable suggestions. My association with her has been a learning experience on different aspects of life. Her positive and methodological approach continues to enlighten my path.

I would also like to be grateful to my project mentor at International centre for Genetic Engineering and Biotechnology (ICGEB), New Delhi Dr. Shams Yazdani, Group Leader, Synthetic Biology and Biofuels Group, ICGEB, New Delhi for providing his immense support, cooperation and guidance throughout my period of stay at ICGEB.

I am also thankful to all my Group mates, classmates and friends at DTU and ICGEB who made my stay so comfortable at DTU and ICGEB. My special thanks to Dr. Archana Bhatt Ma'm, Zia, Tabinda Shakeel, Kamran, Dr. Rahul Singh Sir, Sandeep, Monika Geetanjaly, Brijesh, Anand and Prakhar.

Indeed I am deeply indebted to my parents, who are the starting and inseparable part of my life. Their love and blessing always continue to be my strength.

(ASHOK KR. DEV)

# CONTENTS

TOPIC	PAGE NO
<i>LIST OF FIGURES</i>	1
<i>LIST OF TABLES</i>	2
<i>LIST OF ABBREVIATIONS</i>	3
<b>1. ABSTRACT</b>	4
<b>2. INTRODUCTION</b>	5
<b>3. REVIEW OF LITERATURE</b>	7
3.1 Biofuels and lignocellulosic material	7
3.2 Lignocellulosic Biomass	7
3.3 Pretreatment of Lignocellulosic Materials	12
3.4 Degradation of Lignocelluloses by Microorganism	13
3.5 Xyloglucanase	18
3.6 Carbohydrate binding modules (CBM's)	19
3.7 Industrial Application of Cellulase and Hemicellulase	20
<b>4. METHODOLOGY</b>	24
4.1 Sample	24
4.2 Cultivation of the recombinant strains at shake flask level	24
4.3 Preparation of mass culture for protein production	24
4.4 Harvesting of recombinant strain	25
4.5 Sonication	25
4.6 Filtration	26
4.7 Ni-NTA Column preparation and purification of protein	27
4.8 SDS-PAGE and sample preparation of eluted proteins	28
4.9 Western Blotting	29
4.10 Enzyme Assay (DNS Assay)	30

4.11 Protein Estimation using BCA Kit	31
4.12 Fermentation in a Bioreactor (Xylo)	32
4.13 Flowchart of Methodology	36
<b>5. OBSERVATIONS</b>	<b>37</b>
<b>6. RESULTS AND DISCUSSIONS</b>	<b>38</b>
6.1 Xylo (Shake flask level)	38
6.2 CBM (Shake flask level)	40
6.3 Xylo (Bioreactor)	42
6.4 Comparison between fermentation of xylo at shake flask and bioreactor level	44
<b>7. CONCLUSION AND FUTURE PERSPECTIVE</b>	<b>46</b>
