

# LIST OF TABLES

S no.	Table Legends	Page No.
1.	Inhibitory NK receptors for MHC	7
2.	Activating NK receptors for MHC	7
3.	Description of p815 cell line	19
4.	Composition of gel solution for a 1mm thick gel	24
5.	Sample solubilizing buffer (SSB) (1X)	25
6.	Sample solubilizing buffer (SSB)For 10 ml	25
7.	Composition of staining solution	25
8.	Composition of electrophoretic buffer	25
9.	Lysis buffer composition (for 30ml)	27
10.	Preparation of p815 whole membrane extract	27
11.	p815 surface expressed ligands	
12.	D-complex energies for Ly49A-CD63	31
13.	D-complex energies for Ly49A-galectin-3	32
14.	D-complex energies for Ly49A-p30	34
15.	D-complex energies for Ly49A-gp70	35
16.	Calculation of no. of cells at different time points	38
