

**A comprehensive study on genetic diversity among  
economically important medicinal plant *B.monnieri* using  
RAPD-PCR technique**

*A Major Project dissertation submitted  
in partial fulfilment of the requirement for the degree of*  
**Master of Technology**

**In**  
**Industrial Biotechnology**

*Submitted by*  
**Karanjot Kaur**  
**(2K13/IBT/03)**  
**Delhi Technological University, Delhi, India**  
*Under the supervision of*  
**Dr. Navneeta Bharadvaja**  
**Assistant Professor**

Department of Biotechnology  
Delhi Technological University  
(Formerly Delhi College of Engineering)  
Delhi-110042, India.

## **CERTIFICATE**

This is to certify that the M. Tech. major project entitled “**A comprehensive study on genetic diversity among economically important medicinal plant *B.monniери* using RAPD-PCR technique**” has been submitted by **Karanjot Kaur (2K13/IBT/03)** in partial fulfilment of the requirement for the award of the degree of “**Master of Technology**” in Industrial Biotechnology is an authentic record of the candidate’s own work carried out by her under my guidance. The project work has been carried out during the session 2015.

To the best of our knowledge, the information and data enclosed in this dissertation is original and has not been submitted elsewhere for the award of any other degree.

**Date:**

**Dr. Navneeta Bharadvaja**

Assistant Professor  
(Project Guide)  
Department of Bio-Technology  
Delhi Technological University

**Professor D Kumar**

Head of Department  
Department of Bio-Technology  
Delhi Technological University

## **DECLARATION**

I hereby declare that this M.Tech dissertation on the topic “**A comprehensive study on genetic diversity among economically important medicinal plant *B.monnieri* using RAPD-PCR technique**” submitted for the partial fulfilment of the degree of Master of Technology in Industrial Biotechnology is a record work done by me, under the guidance and supervision of DR. NAVNEETA BHARADVAJA, Assistant Professor at Department of Biotechnology, Delhi Technological University, Delhi.

I further admit that this project report has not been submitted to any other institution or organization for any reward or certificate.

KARANJOT KAUR

2K13/IBT/03

M.Tech (Industrial biotechnology)

(2013-2015)

## **ACKNOWLEDGEMENT**

I feel this is a significant pleasant moment and great opportunity to turn back and thank all those learned souls who have helped me with their knowledge and experience to complete this piece of work completely.

I express my sincere feeling of gratitude and indebtedness to my Project Guide DR. NAVNEETA BHARADVAJA, Assistant Professor at Department of Biotechnology, Delhi Technological University, Delhi for her meticulous supervision, encouragement, advice, guidance, help and counselling throughout the course of my work. I am thankful to her for introducing me to the excellence of scientific research. Her valuable suggestions in the preparation of this report are greatly acknowledged. I also express my sincere feeling of gratitude to Ms. Nupur Johri, Research Scholar at Department of Biotechnology, DTU for her help and cooperation throughout.

I take this opportunity to express my profound gratitude to Dr. D Kumar (Head of Department, Department of Biotechnology, DTU) for giving me this opportunity to work in the esteemed laboratory of Biotechnology Department, DTU.

Last but not the least, I owe thanks to my parents and friends for their patience, moral support and encouragement in accomplishing this piece of work.

KARANJOT KAUR

(2K13/IBT/03)

M.Tech- Industrial Biotechnology

## CONTENTS

<b>TOPIC</b>	<b>PAGE NO</b>
<i>LIST OF FIGURES</i>	1
<i>LIST OF TABLES</i>	2
<i>LIST OF ABBREVIATIONS</i>	3
<i>ABSTRACT</i>	4
<b>1. INTRODUCTION</b>	<b>5</b>
1.1 <i>Bacopa monnieri</i> - a medicinal plant	
1.2 Economical importance	
1.3 Commercial value	
1.4 Genetic Diversity	
1.5 DNA markers used in plant genome analysis	
<b>2. REVIEW OF LITERATURE</b>	<b>9</b>
2.1 Herbal Medicines	
2.2 Current trends in Herbal Medicines	
2.3 Molecular Markers in medicinal plants	
2.4 Random Amplified Polymorphic DNA (RAPD)	
2.5 Applications of molecular markers in plant genome analysis	
2.5.1 Genetic Variations	
2.5.2 Authentication of medicinal plants	
2.5.3 Marker assisted selection of desirable chemotypes	
2.5.4 Other applications	
<b>3. METHODOLOGY</b>	<b>22</b>
3.1 Plant Materials	

3.2 DNA extraction	
3.3 Qualitative and quantitative estimation of DNA	
3.4 PCR amplification	
3.5 Agarose gel electrophoresis	
3.6 Data analysis	
<b>4. RESULTS</b>	<b>27</b>
4.1 Extraction of genomic DNA	
4.2 Screening of RAPD primers	
4.3 RAPD analysis	
4.4 Dendogram cluster analysis	
<b>5. DISCUSSION AND FUTURE PERSPECTIVE</b>	<b>36</b>
