### CERTIFICATE

This is to certify that this dissertation entitled” **APPLICATION OF OPTIMIZATION TECHNIQUE IN FINDING LOCATION OF SWITCH & IT’S OPTIMAL NOS. IN DISTRIBUTION NETWORK.**” is an authentic report of the project done by **ASHISH RANJAN** in the partial fulfillment of the requirement for the award of the degree of Master of Technology in Power systems by the Delhi Technological University during the year 2013-14.

## **ACKNOWLEDGEMENT**

I take this opportunity to express my sincere gratitude to all those who have been instrumental in the successful completion of this project.

First and foremost, I express my sense of gratitude to my guide Shri J.N. Rai, Associate Professor, Department of Electrical Engineering, Delhi Technological University for his constant supervision and valuable suggestions for my thesis work entitled

" APPLICATION OF OPTIMIZATION TECHNIQUE IN FINDING LOCATION OF SWITCH & IT'S OPTIMAL NOS. IN DISTRIBUTION NETWORK" . This project would not have been possible without his help and the valuable time that he has given me amidst of his busy schedule.

I wish to take this opportunity to express my gratitude to Prof. Madhusudan Singh, Head of Department and Prof. Narendra Kumar, Ex-Head of Department of Electrical Engineering Department for their constant encouragement during the conduct of the project work.

I would like to thank all those who have directly and indirectly helped me in completion of thesis well in time.

I would also like to extend my gratitude to all my batch mates who have always encouraged and supported me in doing my work.

With great pleasure and respect, I express my utmost gratitude to almighty GOD ,my beloved parents, my family members for their moral support and confidence showed in me to pursue M. Tech at advanced stage of my academic career.

Last but not the least I would like to thank all the staff members of Department of Electrical Engineering who have been very cooperative with us.

Surely it is Almighty's grace to get things done fruitfully.
