A DISSERTATION ON

Studying the miR-24 expression profile in breast carcinomas and synthesis of liposomes as nanovehicles for siRNA based future oncotherapeutics

SUBMITTED IN PARTIAL FULFILLMENT OF THE REQUIREMENTS FOR THE AWARD OF THE DEGREE OF

MASTER OF TECHNOLOGY

IN

NANO SCIENCE AND TECHNOLOGY

SUBMITTED BY

ROHAN KAR ROLL NO. 2K12/NST/019

UNDER THE SUPERVISION OF

Dr. NITIN K. PURI

DEPARTMENT OF APPLIED PHYSICS DELHI TECHNOLOGICAL UNIVERSITY DELHI -110042 SESSION 2013-2014

CERTIFICATE

This is to certify that the M. Tech. dissertation entitled "Studying the miR-24 expression profile in breast carcinomas and synthesis of liposomes as nanovehicles for siRNA based future oncotherapeutics", submitted by Rohan Kar (2K12/NST/019) in partial fulfilment of the requirement for the award of the degree of Master of Engineering, Delhi Technological University (Formerly Delhi College of Engineering, University of Delhi), is an authentic record of the candidate's own work carried out by him under my guidance.

The information and data enclosed in this dissertation is original and has not been submitted elsewhere for honouring of any other degree.

Date:

Supervisor

HOD

DECLARATION

I hereby declare that the work presented in this dissertation entitled "**Studying the miR-24 expression profile in breast carcinomas and synthesis of liposomes as nanovehicles for siRNA based future oncotherapeutics**" has been carried out by me under the guidance of Dr. Nitin Kumar Puri, Assistant Professor, Department of Applied Physics, Delhi Technological University, Delhi and hereby submitted for the partial fulfillment for the award of degree of Master of Technology in Nanoscience and Technology at Applied Physics Department, Delhi Technological University, Delhi.

I further undertake that the work embodied in this major project has not been submitted for the award of any other degree elsewhere.

Date:

Rohan Kar 2K12/NST/019 M.Tech, Nano Science and Technology Department of Applied Physics Delhi Technological University

ACKNOWLEDGEMENT

Foremost, thanks to almighty for giving me strength and courage.

I would like to extend my sincere gratitude towards my supervisor Dr. Nitin K. Puri, for his constant support and motivation. His valued encouragement and ethereal guidance has been a constant driving force towards completion of this project.

I am highly indebted to Dr. Pravir Kumar and Dr. Rashmi Ambasta for their gracious presence and encouragement, that has not only helped me shape the course of this project but also my career as a whole.

I am deeply grateful to Prof. S.C.Sharma, Head of Department (Applied Physics), Delhi Technological University for his support and encouragement in carrying out this project.

I am deeply thankful to Dr. Raghunath Bhattacharyya for his constant support.

I also would like to extend my love and deep sense of gratitude towards my parents, whose blessings are a constant source of positive energy and inspiration.
