

DECLARATION

*I RISHI RAJ hereby declares that the thesis entitled “**SYNTHESIS OF GRAPHENE PAPER FOR APPLICATION IN EMI SHIELDING**” is an authentic record of research work done by me under the supervision of **Dr.Parveen Saini**, senior scientist, Polymeric and soft Material Section, CSIR-National Physical Laboratory and **Dr. D. Kumar**, Professor, Delhi Technological University, Delhi. This work has not been previously submitted for the award of any degree or diploma of this or any other University/Institute.*

Date

Rishi Raj

CERTIFICATE

This is to certify that the project entitled “**SYNTHESIS OF GRAPHENE PAPER FOR APPLICATION IN EMI SHIELDING**” submitted by *RISHI RAJ (2K14/PTE/018)* in partial fulfillment for the award of degree of Master Of Technology in Polymer Technology to Delhi Technological University, Delhi, is a recorded of the work carried out by him under our supervision. This work has been carried out from 1st January, 2016 to 31st may, 2016. The project embodies the original work done by him to the best of our knowledge and has not been submitted to any other degree of this or any other university. The matter embodied in this project is original and not copied from any source without proper citation.

Dr. D. Kumar

Professor and HOD

Department of Applied Chemistry
& Polymer technology
Delhi Technological University
New Delhi-110042

Dr.Parveen Saini

Senior Scientist

Polymeric and Soft Material Section
Materials Physics and Engg. Division
CSIR-National Physical Laboratory
New Delhi-110012

Dr. Rajeev Chopra

Head

Human Resources and Development
CSIR-National Physical Laboratory
New Delhi-110012

ACKNOWLEDGEMENT

*First of all I would like to thank **Prof. Dr. D.Kumar, Head, Department of Applied Chemistry and Polymer Technology, Delhi Technological University (DTU)**, for allowing me to carry out this project work at NPL.*

*I wish to express my sincere thanks to **Dr. D. K. Aswal**, director, CSIR-NPL,*

***Dr. Rajiv Chopra**, Head, HRD group and **Dr. R.K. Kotnala**, Head Polymeric and Soft Material Section for permitting and providing the facilities to carry out this thesis work.*

*I want to express my deep sense of gratitude to my supervisors **Dr. Parveen Saini, CSIR-NPL** and **Dr. D.KUMAR, DTU** for guidance and encouragement which has been a great source of inspiration to me. Their constant suggestions and cooperation have been invaluable and I was greatly benefited by their vast knowledge and practical experience.*

I am highly thankful to all my faculty members and non-teaching staffs for their guidance and support to carry out this work.

I would like to thank Ms. Neakanshika, Vishakha, Mr. Rahul Sharma, Waseem khan for their cooperation and extending all possible help during the course of my experiments.

*I am even more indebted to **my parents** for their inspiration, love, care, patience, sacrifices and support.*

Rishi raj

INDEX

CONTENTS	PAGENO.
LIST OF FIGURES	v
LIST OF TABLES	vi
CHAPTER 1. INTRODUCTION	1-5
CHAPTER 2. LITERATURE SURVEY	6-15
CHAPTER 3. EXPERIMENT TECHNIQUES	16-22
CHAPETR 4. RESULTS AND DISCUSSION	23-40
CHAPTER 5. CONCLUSION	41
FUTURE SCOPE	42
REFRENCES	43-46

LIST OF FIGURE

FIGURE	PAGE NO.
1. Schematic representation of EM wave and EM radiation vector	2
2. Schematic representation of EMI shielding mechanisms	3
3. Flow diagram for the preparation of GO	17
4. Flow diagram of oxidation of graphite	18
5. Free standing GO paper	19
6. Reduction of graphitic oxide	20
7. Reduced GO paper	21
8. XRD spectra of graphite	23
9. XRD spectra of graphitic Oxide	24
10. XRD spectra of rGO	25
11. ATR-FTIR spectrum of GO	25
12. RAMAN spectra of GRAPHITE	27
13. RAMAN spectra of graphitic oxide	28
14. RAMAN spectra of reduced graphitic oxide	29
15. Nano indenter instrument IBIS	30
16. Load displacement curve	30
17. Load displacement curve of specimen	33

18. Schematic diagram of EMI shielding measurement setup	34
19. Stress Strain curve generated by UTM	37
20. Stress-Strain curve of GOP	38
21. Results and Dimensions of specimen	40

LIST OF TABLE

TABLE	PAGE NO.
1. Different matrix with different vol. % and their shielding effectiveness.	11
2. EMI shielding effectiveness at 1-2 GHz of PES matrix composites with various fillers	13
3. EMI shielding effectiveness (SE) and specific SE values for samples	35
