

ELECTRICAL CHARACTERISATIO
OF
FERROELECTRIC CERAMICS

A DISSERTATION

SUBMITTED TO THE DEPARTMENT OF APPLIED PHYSISCS
AND THE COMMITTEE ON DELHI COLLEGE OF ENGINEERING
IN PARTIAL FULFILLMENT OF THE REQUIREMENTS
FOR THE DEGREE OF
MASTERS OF APPLIED PHYSICS

ACKNOWLEDGEMENT

The printed pages of this dissertation hold far more than the culmination of years of study. These pages also reflect the relationships with many generous and inspiring people I have met since beginning my work.

The list is long, but I cherish each contribution to my development.

It is difficult to overstate my gratitude to my mentor, Dr A.K.Jha. With his enthusiasm, his inspiration, & his great efforts to explain things clearly and simply, he helped to make mathematics fun for me. Throughout my thesis, he provided encouragement, sound advice & good company. I would have been lost without him.

My research for this dissertation was made more efficient but also much more extensive through use of several electronic resources. Thus I express my gratitude to dr. R.K. Mishra (HOD, Applied Physics Department) for providing me an opportunity to work at one of his prestigious Laboratories.

I would also like to thank Mr. Sameer Jain whose support and guidance made my thesis work possible. He's been actively involved with my work and has always been available for advice. I am extremely grateful for his motivation, enthusiasm, and immense knowledge on the subject.

Finally, I would like to express my gratitude towards the members of laboratory for being great lab-neighbors, providing great work environment, and for their help and chats.

CHANDANA TANDON
