#### Certificate

This is to certify that the dissertation title "A Hybridized Approach for Motion Vector Selection using Rough Set Theory & Particle Swarm Optimization in Video Watermarking" submitted by Ms. Richa, Roll. No. 2K11/SPD/28, in partial fulfilment for the award of degree of Master of Technology in Signal Processing & Digital Design at Delhi Technological University, Delhi, is a bonafide record of student's own work carried out by him under my supervision and guidance in the academic session 2011-14. To the best of my belief and knowledge the matter embodied in dissertation has not been submitted for the award of any other degree or certificate in this or any other university or institute.

> Mr. J. Panda Supervisor Associate Professor Dept. of ECE Delhi Technological University

#### Acknowledgement

I am indebted to my thesis supervisor **Mr. J. Panda, Associate Professor** Department of Electronics and Communication, for his gracious encouragement and very valued constructive criticism that has driven me to carry out the project successfully.

I am greatly thankful to **Prof. Prem R. Chadda,** Head of Department (Electronics & Communication Engineering), entire faculty and staff of Electronics & Communication Engineering and friends for their continuous support, encouragement and inspiration in the execution of this "**thesis**" work.

Finally I express my deep sense of gratitude to my parents who bestowed upon me their grace and were source of my inspiration and encouragement.

Richa
