

CONTENTS

| | |
|--|----|
| Chapter 1 :Introduction..... | 1 |
| 1.1:History and background of EEG..... | 2 |
| 1.2:Neurophysiological basis of EEG..... | 3 |
| 1.3:Human brain..... | 5 |
| 1.4: Brain wave classification..... | 8 |
| 1.5:Electrode positioning..... | 10 |
| 1.6:EEG signal conditioning..... | 12 |
| 1.7:Artifacts..... | 14 |
| Chapter 2 : Literature review:- | 17 |
| 2.1 : Artifacts Removal using SVD..... | 17 |
| 2.2 : Artifact Removal using ICA..... | 18 |
| 2.3 : Artifacts removal using Adaptive Filtering:..... | 20 |
| 2.3.1:DWT(Discrete Wavelet Transform):..... | 22 |
| 2.3.2:LMS(Least mean squares):..... | 23 |
| 2.4:Artifacts removal using Neural Network:..... | 26 |
| 2.4.1:Artificial Neural Network..... | 26 |
| 2.4.2Mathematical Interpretation:..... | 29 |
| Chapter 3 : Proposed Method | 30 |
| 3.1: Method:..... | 30 |
| 3.2 :Mathematical Interpretation:..... | 31 |
| 3.3 : Learning mechanism:..... | 32 |
| 3.4 : Learning algorithms:..... | 33 |
| 3.4.1:Levenberg marquardet learning algorithm:..... | 33 |
| 3.4.2:Scaled Conjugate Gradient learning algorithm:..... | 34 |
| 3.4.3Resilient backpropagation learning algorithm:..... | 36 |
| 3.5 : Activation Function:..... | 37 |
| 3.5.1:Linear activation function:..... | 37 |
| 3.5.2:Sigmoidal activation function..... | 37 |
| Chapter 4 : Results and Discussions..... | 38 |
| 4.1:Signal to Noise Ratio(SNR):..... | 39 |
| 4.2:Mean Square Error:..... | 40 |
| 4.3:Correlation:..... | 40 |
| Chapter 5 : Conclusion | 44 |
| References | 45 |
