CERTIFICATE

This is to certify that the M. Tech dissertation entitled “**Study of the NK cell receptor interaction with their cognate ligands and their role in cancer therapy**”, submitted by **Sudhanshu Sharma (Roll no.: 2K11/BIO/19)** in partial fulfillment of the requirement for the award of the degree of Master of Technology, Delhi Technological University (Formerly Delhi College of Engineering, University of Delhi), is an authentic record of the candidate’s own work carried out by her under my guidance.

The information and data enclosed in this dissertation is original and has not been submitted elsewhere for honoring of any other degree.

Date: July 8, 2013

Dr. Asmita Das

(Assistant Professor)

Department of Bio-Technology

Delhi Technological University

(Formerly Delhi College of Engineering, University of Delhi)

ACKNOWLEDGEMENT

*I would like to acknowledge my deep sense of gratitude to **Professor S. Maji, (Head of Department) Department of Biotechnology, Delhi Technological University, Delhi-110042** for giving me an opportunity to study and work in this prestigious Institute.*

*I am extremely thankful to my mentor, **Dr. Asmita Das, Assistant professor, Department of Biotechnology, Delhi Technological University, Delhi-110042** for her exemplary guidance, monitoring and constant encouragement throughout the M. Tech course. I would also like to thank her for sparing the efforts in compiling the work presented here.*

*I wish to express my sincere gratitude to **Dr. Abhinav Grover, Assistant Professor, School of Life Sciences, Jawaharlal Nehru University, Delhi-110067** for providing me continuous support throughout this project.*

At last, I am extremely thankful to my parents, family members and friends whose blessings and support were always with me.
