Onboarding Training on Engineering Village on 03.06.2019

Central Library, DTU organized an Onboarding Training on Engineering Village on 03.06.2019 (Monday) at 11:00 a.m. in the Conference Hall on 3rd floor of the Central Library, DTU. The workshop conducted by an expert and product manager **Mr. Matthew McGarva**. He is responsible for the development and maintenance of thesauri, indexing & search and retrieval strategies that ensure both precision and recall of content for Engineering Village and its flagship database, Ei Compendex. Matt joined Elsevier from the Institute of Engineering & Technology (IET), where he was responsible for taxonomy, classification & indexing enhancements for Inspec. Matt has B.Eng. (Hons) in Electronic Engineering, and over 15 years of experience working within information science in the engineering and physics domains and **Mr. Vincent Paul**, Solution Sales Manager, South Asia, ELSEVIER | Research Solutions Sales. Dr. Lalita, Assistant Librarian coordinated the workshop under the supervision of University Librarian, R K SHUKLA. The Onboarding Training was a great success.
