Vice Chancellor's **REPORT**

Delhi Technological University (Erstwhile Delhi College of Engineering) has a glorious past of more than 79 years and is widely acclaimed for its excellence in education, research & training. DTU's transformation from Delhi Polytechnic to Delhi College of Engineering and then finally to Delhi Technological University has taken an astounding shape and the autonomy granted to it has spurred progress in several uncharted territories. The various transformations have helped us to remain young and energetic in our endeavor for academic excellence.

With a history of over 79 years in providing technical education within modern educational infrastructure, DTU is an institution which defines and continues to update frontiers of Engineering. DTU is fully networked with Industrial, Academic & Scientific community. It has partnerships with leading Universities and Industries in India & abroad. DTU has the alma mater of a highly distinguished pool of World class Engineers and Technologists which includes **Vinod Dham**, the father of the Pentium Chip, **Promod Haque**, the world's most widely acclaimed Venture Capitalist, **Raj Soin**, the Avionics wizards of US & a top ranking Techno Entrepreneur, **Durgadas Agrawal**, the renowned Techno-Entrepreneur based in Houston, to name a few. Delhi Technological University has been the pioneer of Quality Technical Education, Research and Innovation.

Our University has kept the quality of education & research as its main focus of academic and Professional activities, and this has earned us a high reputation in the country and abroad. This is evident from DTU figuring several times among the Top Ten Engineering Institutions in the country, along with the prestigious IITs. Delhi Technological University, has taken several new initiatives in restructuring and strengthening its academic programmes at Postgraduate and Undergraduate levels during the years. Introduction of new programs at the postgraduate level and focus on research and development are crucial factors that have helped in the recognition of DTU as a premier University for higher learning. The University has emerged as the leading Technological University for higher technical education and research in the country. DTU continues to be the one of the most

sought-after destination for undergraduate and postgraduate studies and attracts the top performers in national examinations such as JEE (Mains) and GATE.

We at DTU are committed to achieve our goals to create an environment in which we can nurture our students to be knowledgeable, innovative and trained to work unceasingly to serve the Nation and society. The development of the Nation depends upon their technical competence and work ethics that they have imbibed during their formative years as students. We are focused to keep pace with the continual progress in the fields of science and technology. The characteristics of the student population at the university are undergoing a significant change in the recent times. The university has responded pragmatically to the large increase in its intake by substantially reorienting itself academically, technologically and administratively and using it as a great opportunity to retain its leadership in engineering education in the country. The undergraduate curriculum for engineering education is designed in such a way that it introduces a new rigor and methodology in undergraduate teaching, laying emphasis on developing analytical skills and challenging the students intellectually.

Admissions

In the year 2019-20, with the initiative of Government of NCT of Delhi, admission to the B. Tech. Programmes at Delhi Technological University was conducted through common counseling, Joint Admission Counseling (JAC), along with three other technical universities/ institutes viz. Indira Gandhi Delhi Technical University for Women (IGDTUW), Netaji Subhas Institute of Technology (NSIT) and Indraprastha Institute of Information Technology Delhi (IIITD). In this way, total 2100 admissions in B. Tech. at DTU were made through common counseling, 18 in B. Tech. (Lateral Entry) and 50 admissions were made in B. Tech (Continue Education). ACADEMIC PROGRAMMES

- Ph.D. Research Scholars (English): 3
- Ph.D. Research Scholars (Economics): 3

SALIENT FEATURES

The department of Humanities was established in the year 1941 with a view to impart necessary soft skills to the graduating engineering students. Initially courses in English, Economics and Accountancy were taught to the students. With the growing impetus on new courses like Econometrics, Gender and Technology and timely revision of syllabi of subjects like Engineering Economics and Communication Skills, a crossover between technical and non-technical aspects of learning is facilitated. The main objective is to give the students a comprehensive idea of the competition and the emerging work cultures to make them confident and market ready. To sensitize students towards technological need of poor and deprived for inclusive growth, B.Tech. students of all the branches are compulsorily asked to visit slum and prepare an assignment on the problems of slum and how knowledge of their branch of engineering can be used to improve life at slum.

In the current scenario we need engineers who can develop technologies that are sustainable, user friendly, effective and adaptable with respect to changing social and cultural realities. The humanities department is therefore actively engaged in the process of research work, courses and finishing lectures which are organized throughout the year for the benefit of students and teacher alike.

Details of Currently Incubating Startup Companies at DTU-IIF

1. **FAUCET LABS PVT. LTD.**
(CIN: U72900DL2019PTC347110):
Cypherock provides security storage solutions for blockchain based digital assets and private keys. It is developing a universally designed hardware wallet to enable seamless and secure mobile blockchain transactions. The first product is a hardware wallet portable to the mobile case or a plug & play case in order to mitigate both PC & mobile software wallets' security risks. It will have a touchscreen, serve dual purpose (both desktop & mobile), be portable to other devices, secured by biometric and user set PIN, support diversity of digital assets and be a cold storage.
2. **ZEFI LABS PVT. LTD.**
(CIN: U74999DL2017PTC323170)
Maximum water coming out of the tap bounces off without coming in contact

with surface. Hence, we came with Dropp, an atomizer faucet designed to fit with any domestic tap which converts water coming out of the tap into millions of tiny droplets, creating a heavy mist, shooting out of the tap. This increases the surface area of water drastically and makes the efficient use of water while washing. But sometimes, higher flow rate is required, for that we have normal flow mode also. Normal flow mode also saves up to 75% water. Dropp serves to the places with high water consumption and water scarcity.

3. **AMPEREPLUS PVT. LTD.**
(CIN: U74999DL2016PTC301297)

Ampere provides turnkey EPC/INC solution for Solar Power Plants for industrial and commercial market. We also provide data-based monitoring and energy saving technology to monitor devices like street lights, Solar Powered internet routers with motion sensors, etc.

5.3 Solar Energy Centre

Operation of 432 KW SPV roof top plant on resco model and 40 KW SPV plant on capex model functioning at Delhi Technological University

Delhi Technological University has installed 432 KW of Solar Photovoltaic Rooftop Plant on resco model by M/S Hero Future Energies on the terrace of the various departments. This has been further added by 40 KW SPV plant by M/S Photon Energy Systems Ltd. on capex model on the rooftop of administrative building. All together there has been 472 kW SPV plant in DTU. Both the plants have been working very satisfactorily. All 472 kW solar panels have been installed in Science block (108 kWp, having 1 Electronic

solar metre), Mechanical block (150 kWp, having 2 Electronic solar metres) and Electronic block (174 kWp, having 3 Electronic solar metres). Hero Future Energies has provided the solar metre readings for the last one year from Aug 17 – Aug 18 as given in the table below.

It has been observed that the maximum solar electricity output of all the 432 kW solar panel from all the 6 electronic metres is found as 49482 kWh in the month of September 2017. This is on an average 3.81 kWh per day production from 1 kW panel.

A 40 KWp system has been also commissioned in the month of June 2015 and functioning properly. It has two inverters of 20 kW each connected to the above system. The control room has been built on the ground floor at the back of the building. The DC

power so generated by the SPV plant is converted into AC power by the SSE model inverters and fed to the 3 phase Delhi Technological grid.

The above two systems are grid connected to the TATA power Delhi Distribution Limited. (TPDDL) and are controlled in such a way that whenever

solar electricity is produced it has priority to the DTU grid. It means that when DTU has zero load then only it will be exported to the TPDDL. The cost of the solar electricity comes cheaper than the cost of the electricity provided by TPDDL.

5.4 Kitchen Waste Plant

Delhi Technological University in collaboration with Bhabha Atomic Research Centre (BARC) has set-up 500 kg per day kitchen waste biogas plant in the backyard of main canteen. This is based on Nisargruna technology, developed by BARC which is a method of processing biodegradable waste. It is an environment friendly technology, which delivers two valuable products i.e., flammable methane and organic manure. The waste generated in the main canteen is fed into the installed biogas Plant. This plant was installed and commissioned in April 2014. Initially, the system started functioning with about 50 kg wastes per day and slowly it moved to more than 100 kg per day and in due course of time it will reach to its full capacity i.e., 500 kg per day. The equal amount of water is also mixed with the waste. It is mixed and grinded and then fed to the plant. The methane gas so generated by this plant is fed to the kitchen of the main canteen.

This technology is very useful to sabzimandi and Municipal Corporations to process their vegetable waste as most of biodegradable waste can be utilized as raw material for the plant.

Biogas and manure is valuable product. Nevertheless, whole technology creates various types of opportunities for different prospects. Biogas can also be used for the generation of Electricity. Waste segregation at the source is another major issue which needs proper attention. Biogas production is faster because of combination of aerobic and anaerobic digestion technology. Electricity generation from biogas is also one of the potential benefits. This technology development will save environment to greater extent. It will also provide benefits in the form of Biogas, reduction in GHG emission, health benefits, social benefits and benefits in terms of financial investments. In future there will be scope for extra benefits like subsidies and benefits like carbon credits, which will give high rate of return on total investment. Entrepreneurs will excel in their ventures by selling services and products related Technology. DTU is in contact with some other organizations to provide consultancies in this area. The DTU students have already produced some research papers. Few students are doing their B. Tech., M. Tech. and Ph.D. projects. Presently this plant is under maintenance and operation.

5.5 Centre for Advanced Studies and Research in Automotive Engineering

Centre for Advanced Studies and Research in Automotive Engineering (CASRAE) was founded in 2003 in the erstwhile Delhi College of Engineering with the objectives of developing variety of alternative fuels and engine technologies to reduce the dependence on imported crude petroleum and minimize harmful exhaust emissions. The centre has seen a radical growth in last 17 years and it is being considered as one of the key research centres not only in India but abroad also. The faculty along with the students have published research papers in large number of International Journals and have also attended international conferences abroad. The faculty and students are attending various American Society of Mechanical Engineers (ASME) and Society of Automotive Engineers (SAE) conferences and also publishing papers in Elsevier, Wiley, Springer, Taylor & Francis, SAE and ASME Journals.

The prime focus areas in the Centre include; Advancement in design of Compression Ignition and Spark Ignition Engines, Development of Micro-Turbojet Engines, Studies of Aerodynamic Characteristics of various airfoils, Design characteristics of Aircrafts, Hybrid Vehicles, CFD study of spray injection, Biofuels like biodiesel, ethanol, n-Butanol and host of other promising alternative fuels such as renewable diesel, nanofuels, Compressed Natural Gas (CNG), Hydrogen etc.

- **Multi Utility Solar Kart** (August – October 2019, CASRAE)

The Students of Centre for Advanced Studies and Research in Automotive Engineering (CASRAE) developed a Multi Utility Solar Kart from scratch by

altering the default chassis of a standard yet most widely used “E-Rickshaw”. The top frame of the chassis was modified as such to accommodate four solar panels, which can be used to harness the Solar Energy that can be stored up in four lead acid batteries for power requirements. After all the cosmetic changes were done, the Solar Kart was ready to roll over roads with zero emissions. As for the performance evaluation, the Kart can be fully charged in 7 hours during peak time (overhead sun on a bright sunny day) and can achieve a top speed of 25 kmph while carrying a load up to 400 kgs. The kart can also serve the purpose of transportation and logistics.

Dr. Harsh Vardhan was the chief guest for the event along with many other dignitaries from Ministry of Petroleum and Natural Gas and officers/officials of oil companies like IOCL, ONGC etc. It was an overall learning experience for the students. The students also shared the significant achievement made by the DTU in this vital sector.

- ENERGY QUIZ (October 2019, CASRAE)
Centre for Advanced Studies and Research in Automotive Engineering (CASRAE) in association with Institution of Mechanical Engineers (IMechE) DTU Chapter had organized an “ENERGY QUIZ” for B.Tech, M.Tech. and Ph.D. students of all domains. The quiz had 50 questions from different fields, with the common theme of Energy. The event saw enthusiastic participation from many students of different colleges across different branches, out of which multiple students affirmed that the quiz was a great learning experience for their inquisitive minds. First 3 toppers received cash prizes of rupees 1000, 800 and 600 respectively. The organizing team was very glad to organize such an interesting event that fascinates young minds.

5.10 Multidisciplinary Centre for Geoinformatics (MCG)

A Multidisciplinary Centre for Geoinformatics (MCG), was inaugurated on 5th March, 2019 by Hon'ble Vice Chancellor Prof. Yogesh Singh, DTU with the vision to be a world class multidisciplinary centre in the field of Geospatial and Geoinformatics education, research and consultancy. Geoinformatics is described as the science and technology dealing with the structure and character of spatial information, its capture, its classification and quantification, its storage, processing, portrayal and dissemination, and it also includes the infrastructure necessary to secure optimal use of this information.

Vision and Mission:

To be a world class multi-disciplinary Centre in the field of Geospatial and Geoinformatics education, research and consultancy. To establish the multi-disciplinary Centre of Geoinformatics as a global Centre of eminence in the field of Geospatial and Geoinformatics education, research and consultancy. To establish partnerships and collaborations with various national and international space agencies, institutions of eminences in the field and the associated industries. To develop the Centre as a non-profit and self-sustainable Centre.

4th Himalayan Researchers Consortium-2019

Two Himalayan JRFs (Mr. Gopinadh Rongali and Ms. Aayushi Pandey) attended the 4th Himalayan Researchers Consortium-2019 that was held during 26–27 September 2019 at Wildlife Institute of India (WII), Dehradun, Uttarakhand. Mr. Gopinadh Rongali made an Oral Presentation & Ms. Aayushi Pandey presented a Poster to the NMHS Monitoring & Evaluation Committee. Mr. Gopinadh Rongali got a “Best Presentation Award” for research approach to findings and methodologies towards addressing the critical Himalayan issues/challenges

Uttarakhand Glacial Lake Field work

MCG, DTU has been working in National Mission on Himalayan Studies project on GLOFs studies. The study under the project is focused on finding the potential glacial lakes in Alaknanda River basin, Uttarakhand and Satluj River basin, Himachal Pradesh that may be vulnerable due to GLOF. Identification of glacial lakes is being done using Landsat time series data and is known as inventorisation of lakes. Identification of potentially dangerous lakes is also simultaneously done. Recently, while making the inventory of vulnerable lakes, the two research fellows identified one of the possible highest dangerous

glacial lake of Alaknanda basin, Uttarakhand in the western Himalaya which may also be a potential vulnerable lake for GLOF. This Glacial lake is situated at an altitude of 5584 m (Lat/ Long: 30°58'33.26" N, 79°27'33.52" E) and is possibly one of the highest potentially dangerous lake at this

altitude particularly because of Army and ITBP staying nearby. The maximum surface area of the lake as assessed from the satellite image, acquired on 16 September 2018, is approximately 0.21 sq.km². In order to validate the findings and also to ascertain various other physical parameters of the lake, a massive field work was carried out from 29 September, 2019 to 11 October, 2019 ahead of Joshimath in general area Ghastoli and Raktakona, Uttarakhand. Both the JRFs along with two students of M.Tech. Geoinformatics (Mr. Vishal and Mr. Vivek) took part in the field work. Since the area fell along the Indo-China border, the mobilization not only required Inner Line Permit from the SDM Joshimath but also successive stages of acclimatization and support and permission of both the Indian Army and ITBP (Mana, Ghastoli and Raktakona). The mission was accomplished successfully, the field data has been collected in the form of lake photographs, videos and soil samples. The data is being analysed and the flood modelling carried out.

COVID-19 Dashboard work for Delhi Districts using GIS

Emergence of coronavirus disease 2019 (COVID-19) as the latest pandemic affecting humans across the world is the only prominent news today. The whole world as well as our country is grappling with it. More than half of the humanity has undergone unprecedented lockdown and everyone has been trying to somehow contribute towards the effort of containment of spread of this disease. At MCG, we created GIS maps for different districts of Delhi to provide GIS support to districts of Delhi to facilitate their planning. GIS maps were created by students who worked from home during COVID.

Summer Internships

MCG, DTU has been created with an aim to proliferate Geospatial/Geoinformatics education in the country. An online internship program was therefore initiated to help students who want to gain knowledge in this field. The focus of this internship program was, “Learn by Working” and in lieu of watching/attending lectures, learn by making use of online free data and software. In view of the large number of students who enrolled, the internship was run in two parts—(i) Month 1 -Introduction to fundamentals. (ii) Month 2 & 3 Advanced aspects and a project. The Fundamentals were taught in one of the following subject areas (i)

Remote Sensing Photogram-metry and Satellite Image Processing (Ms. Shalini, RA) (ii) Introduction to Geographic Information System and Web GIS (Ms. Ayushi, Guest Faculty), (iii) Surveying, Satellite Geodesy, GPS/GNSS (Mr. Dwijendra Pandey, RA), (iv) Microwave and Lidar Remote Sensing (Mr. Gopinadh Rongali, SRF) and (v) Advanced Image Processing in Geo-informatics (Ms. Rubeena, Ph.D. student). In Month 2 & 3, advanced aspects and a project of a choice of the student was completed. A total 170 students were received a e-Certificate from Multidisciplinary Centre for Geoinformatics on successful completion of the first month of the course and the projects will conclude by October end.

Engifest 2020 Report

Partnering with brands like Resso, Nestle, Studds, Delhi Capitals, Hero Motocorp, Pepsi, ONGC, NHPC, Times Internet, the Indian Oil Corporation, and several other big names from various sectors of the industry, all of whom were enraptured with the branding, promotion, and the humble business of Team Engifest.

This was followed by the address of all the other dignitaries on the dias.

The program ended by a blissful and mesmerizing Kavali performance, which saw an applause from round the corners of B.R. Auditorium. The stage and mood was now all set and ready for the next 3 days.

Day 1 - 14th February

The kick-off day to the biggest fest in North India's mega-extravaganza and coincidentally the day of love - also known as Valentine's day witnessed an enthralling footfall of over a lakh millennials.

Diverse cut-throat competitions like Outrounds (Debating), Spandan (Western solo dance), Mr. and Mrs. Exquisite (Solo

Fashion contest), and the piquant shoe painting competition saw a turn-out of students from all across the nation who had come to participate and showcase their talents.

The evening caught applause by the

performances of Rooh Fusion Band - Indie Artist on the Nirvana Stage, Kupawa (light painting) - an international artist from Ukraine who performed at the OAT, and light-hearted meet and greet events by Screen-Patti and Hasley India Panel - Indian screenplay artists cast also at OAT.

The Fusion Nite, the first night of the fest, and also the Valentine's night was soothed with a mesmerizing live performance by the famous Bollywood singer - Papon.

The second act of the night witnessed a heart-throbbing performance by the popular Bollywood rapper - Divine along with his Gully Gang crew. The venue was jam-packed with students who harmonized along with the mesmerizing performers.

Day 2 - 15th February

The second day of the 3-day extravaganza kicked off with the stage play competition, Natya, in the BR auditorium. Other competitive events like Paridhan (Fashion Show), Engi Idol (Indian Solo Singing), Jhamela (Chaotic Quiz) and Big Canvas Painting also witnessed a record participation from all over the country.

The OAT was as engaging as ever with interactive sessions with renowned YouTubers like Baklol and Jatt Prabhjot,

Just Human Things stars Aisha Ahmed and Harsh Mayar, and the beloved DTU alum, Rajat Sood. A jam-packed OAT witnessed MTV Hustle King Rocco sway the crowd with his new releases, and performances from international stars like Borja Catanesi and Kupava were very well received.

Throughout the day, Nirvana Stage saw a plethora of musical performances as 6 bands engaged in Razzmatazz (Battle of Bands), followed by performances from French band 4AF, and Delhi-based Chizai and Udit Sehgal.

The flagship event of Engifest'20 saw the arguably most hyped and sought-after star of the year, the Punjabi sensation Sidhu Moosewala, perform his first-ever live show at a college fest and bring the second day to a sensational close.

Day 3 - 16th February

Thus came the final day of the 'Utopian Escapade', and it had everything to be crowned the grandest of showdowns.

Headlining competitions like Spandan (Group Dance), Vocalicious, Nukkad etc.

saw talents from all over the subcontinent battle it out for the crown of being the best in the circuit, even the competitions at Engifest 2020 witnessed attendees turn up in huge numbers keeping the venues jam packed at all times.

The closing day of fest welcomed renowned personalities like Half Engineer, Aarij Mirza, and the ever-so-famous cast of the show Engineering Girls for the YouTube Fiesta. International Artists like Alessandro Vasta, Mario Serrano, and Kupava with her LED show, didn't miss out on the party at the

OAT, leaving the spectators awe-struck with their performances.

While the OAT and the Auditorium remained hot spots for the attendees like in the previous editions of the festival, the new addition, the Nirvana Stage, made its own mark and saw power-packed performances by Dream Note, Twinztagram, and the glamorous singer Lekka, making this new addition a huge success.

Following standards set by the former editions, Humor Fest unfolded out to be one of the major successes in the star-studded lineup at Engifest '20. The hilarious stand up comic, Anubhav Singh Bassi, made the humongous assembly at the OAT laugh their hearts out.

The grandest of events call for the grandest of showdowns, and the 3rd day delivered just that, a night that no one wanted to end. Italian DJ Duo Vinai, DJ Mag #28, made the enormous crowd at the concert ground put their dancing shoes on, as they put up an electrifying

show to bring the 'Utopian Escapade' to its culmination.

The 3-day cultural extravaganza, Engifest 2020 was an all-round success. The team successfully overcame any road-block they encountered and were able to turn any negative on its head all thanks to the quintessential support and guidance provided by the university administration. Not only financially, but also in the form of administrative permissions and infrastructure like barricading, green rooms etc. were life savers. Successful execution of the fest can also be expressed in terms of overall participation and the online reach of

the social media handles. The competitions saw more than 4000 participants, reigning in from over 700 colleges. Our Instagram handle recorded more than 3.5 million impressions and our Facebook page had an engagement of over 155k in a span of 2 months.

The B.R. Ambedkar Auditorium, OAT and the Concert Ground recorded the highest ever participations in terms of footfall. The footfall this year was higher than any previous edition of the cultural festival as we recorded an enormous footfall of over 110,000. The footfall was so huge that the campus gates had to be shut even before 6:00 P.M. each day.

The team could foresee the increase in attendees, and thus the number of outsourced bouncers this year was increased to 55 as compared to last year's 40. They played their part with utmost diligence, and were content with the team's treatment and hospitality.

In the organizing of an event of this grandeur, we all agree there is some room for improvement. Security and frisking at the entrances, crowd handling at the concert ground, and overall exclusivity of the fest by restricting the pedestrian entry early on are some areas where the team finds room for improvement.

Team Engifest worked tirelessly over a period of 6 months to put together a festival so big. In this memorable journey, we've come to a realization that to put together a fest of such great magnitude, preparations must commence early.

The team aims to pass the legacy of this fest along with the lessons that we have learned, into the capable hands of our successors in the cultural council. Being completely aware of the current situation, the council still has the belief of seeing through another successful edition of the festival with our successors. Thus the preparations for the next edition need to start as soon as possible and the process of pitching for the association with brands needs to be started with no further ado.

Engifest 2020

To boost morale among quarantined students across the subcontinent, Team Engifest and DTU Cultural Council came up with the idea of Engifest 2.0 - Quarantine Edition.

A, first of its kind, 3-day online cultural extravaganza was organized by the Cultural Council from 22 May to 24 May 2020. It was a grand renaissance to the idea of online concerts, providing the luxury and thrill of concerts and events all brought to the audience at the comfort of their homes.

The team partnered up with Dare2Compete as the official hosting partner, and 92.7 Big FM as the Official Radio Partner for the campaign. Furthermore, many other famous media partners were onboarded to boost the social media presence of all events and to gain traction.

From cultural competitions to Bollywood concerts and hilarious stand-up events, the 3-day fiesta had everything to offer.

Day 1 - 22nd May

The opening day of the revolutionary online fest commenced with the Indian classical solo singing competition Kalawant followed by western classical solo dance

competition - Reconnect Electra. With the ease of performing from home, both the events saw a huge amount of participation from all across the country, with participants of diverse age groups presenting their refined talents and experience.

Gullbo - A Swedish magician, with the opening performance for the fest left the audience in awe with his mind-boggling and pioneering magic tricks.

After the star's grand success at the Nirvana Stage of Engifest 2020, Lekka - an upcoming pop singing idol was the second performer of the Engifest 2.0 - Quarantine Edition.

The closing act of the day was by the super-talented Spanish guitarist, Borja Catanesi.

Events on the first-day captured a cumulative viewership and participation of over 5000 people across the country.

Day 2 - 23rd May

Day 2 of this 3-day online extravaganza kicked-off with Quizwiz, the online quiz competition. The first performance of the day featured the globally renowned British-Indian playback singer Nikhil Paul George.

Stand-Up comedian, Madhur Virli delivered to the viewers and raged a row of laughter with his warm and witty sense of humor.

After rocking the Nirvana Stage at Engifest'20 in February, Udit Sehgal was back with an extremely engaging session with his guitarist, Mridul Luthra. MTV Hustle Agrita 'Agsy' Dhawan and Spanish guitarist GREX, the new additions to this online version, were extremely successful. Comedian Shubham Pujari entertained the audience with his humor and corny jokes. The highlight of the day was the interactive session with former Miss India, Ruhi Dilip Singh with RJ Simran, which witnessed a viewership running into 4 digits.

Day 3 - 24th May

The day of culmination of the latest venture by DTU Cultural Council and team Engifest began with the renowned cellist Diana Gomez, producing a spectacle live from the kingdom of Spain.

A perfect opening to Day 3.

Then came the show stopper, the main event of the climactic day to Engifest 2.0,

#QUARANTUNES with the ever so famous Bollywood playback singer, Divya Kumar.

With his deep notes and soothing voice, he pulled off probably one of the most successful events of the entire festival. Requests kept flooding through the entire course of his immaculate set, with audience engagement at an all-time high.

Rooh : The Fusion Project, the stars from Nirvana Stage at Engifest 2020, made another appearance, in association with Team Engifest, to cheer up the loving audience they performed for at Engifest 2020.

Their lead singer & founder, Shrey Nautiyal, delivered a melodious performance, making the attendees sing along to the beautiful numbers.

Witty lines, hilarious punches and impromptu puns, renowned comedian Kevin Sam's live set in Engifest 2.0 had it all, making it the perfect closure to the Humourfest.

The three-day online journey was brought to its climax by the one-man Italian Orchestra, Alessandro Vasta.

Entertaining live requests and delivering superhit numbers, Vasta put up an amazing show for the last performance of Engi 2.0

Special Mentions

Mental health has been a major issue concerning the youth in these testing times. With the welfare of students as the primary motivation, the team organized a session with Yoga & Meditation Coach, Ritu Todi.

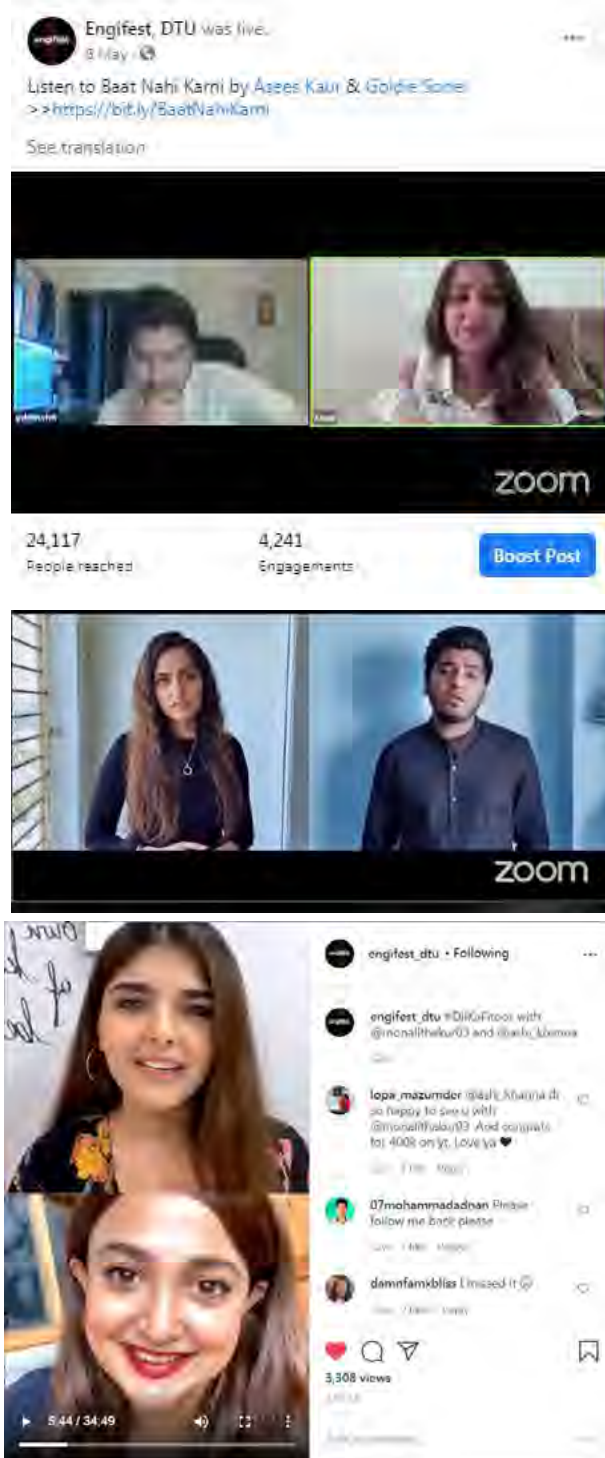

The topic of the session being, Introductory Yoga & Meditation Class for Physical & Mental Wellness, the section revolved around the mental state one often finds themselves in during such challenging times, and how to tackle them right.

Despite not being one of the bigger hits, the team counts this event as one the

highlights, for this event resonated with our cause, and was hosted for the greater good.

Then came, the two most successful shows hosted under the tag of Engifest 2.0 - Quarantine Edition.

Widely celebrated Bollywood playback singer, Monali Thakur, went live from Switzerland, with renowned artist, Ashi Khanna. Promoting her new single, Dil Ka Fitoor, Monali’s melodies attracted over 2.5 thousand live attendees, making this our most successful online concert hosted on our Instagram Handle.

For our most attended Facebook concert, Bollywood fame, Asees Kaur, came live with her co-artist Goldie Sohel, from their new single, Baat Nahi Karni.

Their session single-handedly reached over 24 thousand people, testifying the brand name that Engifest has been able to make through the years.

This initiative, taken up by Team Engifest proved to be a ginormous success. With no financial backing, the team was able to raise meaty cash prizes for every single competition they hosted, and all of them had more than satisfactory participation.

The events hosted under this banner were greatly successful too. Our social media handles reached the pinnacle of engagement during the entire process of planning and executing the fest. Such initiatives showcase the edge that Team Engifest, and why it is considered as one of the biggest names in India.

All artists, sponsors, and participants spoke pleasantly about their experiences with Engifest 2.0 and were highly content with what was delivered.

12.4 NSS DTU

The volunteers commit themselves to the greater good and strive to achieve the best versions of themselves. Awareness regarding the surroundings, identifying social evils pertaining to a region, and formulating and implementing practical ways to tackle them constitute the role of an NSS Volunteer. Both long- and short-term programs in the fields of education, healthcare, road safety, etc., ensure the efficient functioning of NSS as a unit, encouraging teamwork and helping its volunteers grow immensely on a personal level as well.

Kartavya 2020

Social e-fest organized by NSS DTU

Kartavya is the annual social fest organized by NSS DTU. A host of activities were arranged surrounding social issues, in an attempt to raise awareness and call for action. In view of the COVID-19 pandemic and social distancing norms, this year's conclave was held virtually.

From 3rd to 15th April 2020, participants were presented with a multitude of opportunities to showcase their talents. Some of the key events included a debate competition around social issues, a poetry event, and a painting competition. Along with these, a best out of waste craft contest, a photography event with the theme of self-isolation, and a case-study competition were also hosted.

The event witnessed participation from colleges all over India, with the best performers winning e-certificates and other prizes.

Juvenile visits

NSS DTU volunteers regularly visit the Juvenile Justice Board to conduct activities and fruitful interactive sessions. One of the visits was conducted on the occasion of Diwali, wherein children decorated diyas and made greeting cards for their parents. Another such visit was conducted on the 71st Republic day. Tales of independent India were narrated along with quizzes, poem recitals, and a game of volleyball.

TRYAMBAKAM: Rural Camp'19

With a mission to promote the preservation of natural resources and indigenous practices, NSS DTU organized its annual Rural Camp from 20th to 25th December 2019, at Gopalpura, Alwar. Among other activities like learning about organic 'Shramdaan,' and many more, the volunteers interacted and learned from the 'Waterman of India', Sh. Rajendra Singh regarding various water preservation and river revival techniques.

Blood Donation & Stem Cell Registry Camp

A Blood Donation Camp in collaboration with AIIMS and a Stem Cell Donor Registry Camp in collaboration with DATRI Blood Stem Cell Registry were organized on

31st January 2020. The donated blood was used to maintain the stock in blood banks for emergencies, while the stem cell registrations helped create a database of donors for future use. With 155 units of blood donated and 100+ stem cell registrations, the event was a tremendous success.

RAKT

RAKT is an initiative to connect voluntary blood donors with recipients, wherein a database containing the relevant details of blood donors is maintained for emergencies. During the pandemic, this database was further expanded to include relevant details of COVID-19 recovered plasma donors to help patients requiring Plasma therapy. This was done to ensure speedy coordination in case of emergencies. The team managed to successfully help connect various donors with patients within the required time.

Plantation Drive

Given the increased felling of trees, a college-wide plantation drive was held

on 27th August 2019 in an attempt to contribute to a greener campus. Led by Dr. Pravin Kumar and other faculty members, over 50 saplings were planted.

Kalam ko Salaam

Kalam ko Salaam is an initiative by NSS DTU to combine the conventional modes of teaching along with extracurricular activities. Weekly visits were conducted to the Shubhakhshika Open Shelter prior to quarantine. The program continued during the quarantine, where volunteers used various online methods of teaching.

Saarthi

Saarthi is the latest venture of NSS DTU to provide quality education to the underprivileged. Volunteers send recorded video lessons in computer skills and training to Parivartan, an NGO operating in Uttarakhand. Reaching over 70 students, we hope to provide valuable skills to more people across the country.

EWS Camp

Children belonging to Economically Weaker Sections (EWS) often fail to avail of the 25% reservation in admission to private schools due to a lack of awareness and understanding of the online system. An EWS admission campaign was organized from 21st to 23rd February 2020 to bridge the gap between the government's online portal and the oblivious crowd to help them reap the benefits of the scheme. Accruing to our dedicated volunteers' work, over 100 forms were filled.

DTU has a well-equipped centralized computer centre to cater to the needs of high-profile students and faculty in the University. It is housed, in a magnificent state-of-the-art building having specialized laboratories to provide variety of platforms and computing environment for UG, PG and Research students. The centre possesses HP ML370, ML570 standalone servers & DL360, Dell R630 & R720 rack servers, Dell blade servers (power edge 1000e) and about 290 desktop computer of latest configuration (Intel Core i5 processor). These are working on Windows 7/8/8.1/10, server 2008 and Linux platforms. Additionally, it provides Microsoft product license for registered Windows and MS Office to DTU faculty.

DTU Campus wide Network

The centre is networked through high-end intelligent Dax/Avaya/D-Link/Brocade manageable switch, and possesses round the clock two leased lines of 200 Mbps (Bharti Airtel) and 10Gbps link of NKN (shared bandwidth) in different pipes for the Wi-Fi connectivity in the Library, Academic, Departments, Administrative, Faculty residence and Hostel blocks of the campus, with internet facilities on all the nodes. Access for internet is given to end user after secure authentication. Network traffic is being monitored & controlled by full version of checkpoint (UTM). Presently all the 290
