

NOVUS LITTERA

SEPTEMBER

*Compilation of DTU Related News Through Various
Online Platforms by DTU Central Library*

The Central Library of Delhi Technological University (DTU) is pleased to present the September 2026 edition of Novus Litera. This monthly compilation has been designed to bring together significant news, updates, and developments related to Delhi Technological University as reported across various online platforms and digital media channels.

In today's fast-paced digital environment, information about institutional achievements, collaborations, research initiatives, student innovations, and academic activities appears across numerous media outlets and social networking platforms. Novus Litera aims to systematically compile and present such information in a single document, making it convenient for the DTU community to stay informed about the University's presence and recognition in the digital and media landscape.

Through this initiative, the Central Library seeks to document and highlight the diverse accomplishments and activities associated with DTU. By aggregating these reports, the publication serves as a valuable record of the University's academic engagement, outreach, and visibility in various media forums.

We hope that this edition of Novus Litera will provide readers with meaningful insights into the growing footprint of DTU across digital platforms and contribute to strengthening awareness of the University's achievements and initiatives.

DTU Faculty Member Receives CAQM Sponsored Research Grant

DELHI TECHNOLOGICAL UNIVERSITY
(Formerly Delhi College of Engineering)

Congratulations !

DR. RAJEEV KUMAR MISHRA

Associate Professor, Department of Environmental Science and Engineering
on receiving a Sponsored Research Project Grant for:

**“Performance Evaluation of Mechanical Road Sweeping
Technologies for Dust Mitigation in Delhi”**

funded by:

COMMISSION FOR AIR QUALITY MANAGEMENT, NCR

Dr. Rajeev Kumar Mishra, Associate Professor, Department of Environmental Science and Engineering, DTU, has been awarded a sponsored research project grant by the Commission for Air Quality Management (CAQM), NCR. The project focuses on evaluating mechanical road sweeping technologies for effective dust mitigation in Delhi, contributing towards a cleaner and healthier environment.

The Department of Humanities, Delhi Technological University (DTU), organised a Hindi Language Oral Presentation Competition as part of its Hindi Diwas and Hindi Week celebrations. The initiative provided students with a platform to showcase their creativity, ideas, and oral communication skills in Hindi. The programme aimed to promote the importance of Hindi and encourage students to take pride in their linguistic and cultural heritage. The competition also fostered student participation and appreciation for the role of language in preserving India's cultural identity.
